NEW SOUTH WALES

STATISTICAL REGISTER

FOR

1909 AND PREVIOUS YEARS.

JOHN B. TRIVETT, F.R.A.S., F.S.S.,
Government Statistician.

Published by Authority of
THE GOVERNMENT OF THE STATE OF NEW SOUTH WALES.

SYDNEY: WILLIAM APPLEGATE GULLICK, GOVERNMENT PRINTER.

1911.
[5s.]

PREFACE.

THE thirteen sectional parts of this volume have already been issued separately, and are now presented collectively, accompanied by a General Index covering the subjects treated. Every care has been taken to keep the work free from errors; but if any have escaped detection it would be deemed a favour if their nature were indicated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

Bureau of Statistics,
Sydney, 24th February, 1911.

INDEX OF PARTS.

PART. PAGE.

General Index ... ix

I. Population and Vital Statistics ... 1
  Section I.—Population ... 5
  II.—Vital Statistics ... 17

II. Shipping ... 35

PART II.—SHIPPING.

Notes.—(1) *The Shipping Returns of New South Wales are exclusive of ships of war, cable-laying vessels, and yachts; also vessels trading between ports of New South Wales.*

(2) *Vessels are Entered at the first port of call in New South Wales, and Cleared at the port from which final departure is taken; but vessels which only trade between ports of New South Wales are not recorded either as Entrances or Clearances.*

(3) *The repeated voyages of vessels are included, and the tonnage recorded is net.*

NOTE.—Mortgages of Registered British Vessels are dealt with under the Imperial Merchant Shipping Act of 1894. The mortgages are, according to the Act, divided into two classes—one in which the ship is the sole security (principal sum), and the other in which advances are made on the security of what is termed "the Account Current"—an Account Current being in most cases secured by land and other properties, in addition to shipping. The mortgage deed on ships is generally executed for the full amount of the advance.

NOTE.—All certificates have to be renewed at least every twelve months. For a six month's certificate the charges for vessels not exceeding 50 tons are £1; over 50 and under 100 tons, £2; over 100 and not exceeding 300 tons, £3; and an additional £1 for every additional 100 tons or part thereof. For a twelve month's certificate the charges are double these rates, with a maximum of £20. Under the provisions of the Navigation Act, 1901, all vessels, whether steam or sailing, carrying passengers or only cargo require certificates.

No. 38.—Pilotage—Entries and Clearances, 1904–1909.

Pilots and Pilotage.—Appointments to the Pilot Service are made by the Governor and Executive Council, and all Pilots are Government officers. Certificates of Exemption from Pilotage for the various ports of the State may be granted to British subjects, and may be granted and used only in respect of British ships registered in the Commonwealth or New Zealand employed in the Australasian, South Sea Island, or the whaling trade, on passing the necessary examination, provided they have been three times in and out of the particular port for which the Exemption Certificate is desired with their vessels as masters or chief officers. Masters of vessels who hold Certificates are not liable for pilot dues unless the services of a Pilot are obtained.

Note.—The Department of Navigation subsidises tugs at the places mentioned in the above table for the purposes of towing vessels in and out of port or river. The tugs are not allowed to leave the station without the sanction of the Department, and the master must endeavour to be in the vicinity when vessels are ready for sea, and in cases where vessels are in actual danger he must promptly render assistance. The maximum rate for ordinary towing is fixed at 4d. per registered ton, with a minimum of £1 10s. Disputes arising with respect to special services must be settled by arbitration. The masters of tugs are required to take pilots off to vessels signalling for services of a pilot.

No. 42.—Harbour and River Entrances.

Tides.—*Port Jackson, Sydney.*—The self-recording tide-gauge, situated at Fort Denison, was set up in 1867, since when there has been a continuous record of tides. The average rise and fall of the ordinary tides is 3 feet 4·5 inches; but the spring tides average a rise of 5 feet 1 inch, the greatest range of spring tides in 24 hours being 6 feet 7 inches.

Port Hunter, Newcastle.—The tide-gauge is at the pilot's house. The average rise and fall of the ordinary tides is 3 feet 4·8 inches; but the spring tides average a rise of 5 feet 4·6 inches, the greatest range being 6 feet 6½ inches.

Wrecks.—The wrecks and disasters to British merchant shipping are those which came within the jurisdiction of the Court of Marine Inquiry of N.S.W. The wrecks of Foreign shipping relate to vessels the loss of which formed the subject of inquiry by Consuls of foreign countries. The list does not include vessels which have left the State and have apparently been lost, as they have not since been reported.

No. 46.—Certificates, Department of Navigation—Comparative Table.

Department of Navigation.—The "Navigation Act, 1901," created the Department of Navigation.

Certificates—*Master.*—To obtain a master's Foreign-going certificate, the candidate must be at least 21 years of age, and have served six years at sea. For the coast trade the minimum age is 20 years, and the service at sea four years, one year of which must have been as mate.

Mate.—To obtain a mate's Foreign-going Certificate, a first mate must be at least 19 years of age, and have served five years at sea, one year of which must have been as mate in a grade not lower than third or fourth mate in charge of a watch, whilst in possession of a second mate's certificate. For second mate the minimum age is fixed at 17 years, and the service at sea four years. For the coast trade a mate must be at least 19 years of age, and have served three years at sea.

Engineer.—A candidate for a first-class certificate of competency must be at least 22 years of age, and for the second and third-class certificates the minimum age is fixed at 21 years.

Marine Surveyor.—Certificates of Competency are issued to those who can pass, or have passed, the examinations necessary for an extra first-class engineer's certificate, or to master mariners who have been in command of foreign-going ships for not less than five years, or those who are in possession of extra master's certificates. Certificates of Service are issued to persons who have served as Marine Surveyors for three years prior to 1881.

Pilotage Exemption Certificates are granted to any British subject holding a certificate of competency as master, either for a foreign-going or coast-trade vessel, who can show proof that he has acted in the capacity of master or first mate of a vessel entering and departing three times from the port for which exemption is desired, and they can only be used in the Australasian or South Sea Island trade, on vessels registered in the Commonwealth or New Zealand.

Note.—The amount of fees payable for the engagement and discharge of crews is regulated according to the tonnage of the vessel. For engagement and discharge of seamen separately, a fixed fee of 2s. each is charged.

Masters of Foreign vessels engage and discharge seamen at the offices of the Consuls representing the countries to which the vessels belong; consequently, particulars cannot be given in the above table.

Wages of Officers and Seamen—For Rates see Part Manufactories and Works—Section: Industrial Wages, etc.

No. 48.—Harbours and Rivers—Dredging for Year ended 30th June, 1909.

NOTE.—All these dredges are owned by the State, and the Dredge Service of New South Wales is administered by the Department of Public Works, excepting in Sydney Harbour, which is under the jurisdiction of the Sydney Harbour Trust.

---

*The light shows white to seaward, and over Entrance Shoal, red within the shoal, and up the Channel as far as Nelson Head, white up the Harbour.

† Visible between N and N. 62° W., covering Seal Rocks and adjacent dangers. This arc does not include Edith breaker, from which the green light cannot be seen.

‡ Showing red *over* Mermaid Reef, and from reef to land. § Showing over the Juan and Julia rocks. ‖ Shows red over Bellambi Reef.

Distance visible.—The distance is calculated visible to an observer whose eye is elevated 15 feet from the sea level.

---

* Owing to the manner in which interstate transfers are recorded by the Customs Department, it is not possible to ascertain the value of New South Wales produce exported to other Australian States. In 1909 the value of such is estimated at £11,674,436, so that the total export of New South Wales produce was valued at £33,458,814, and the total re-exports of other Australian produce at £4,225,034.

† The total is as recorded by the Customs Department, but the distribution into New South Wales and other Australian produce is estimated.

No. 15.—General Imports, 1909.

Value of Imports.—The value of goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—The Duties charged on Imports into the State of New South Wales are collected under the Commonwealth of Australia Customs Act, 1901 (No. 6 of 1901); the Customs Tariff, 1906 (South African Preference) (No. 17 of 1906); the Customs Tariff, 1908 (No. 7 of 1908); and the Customs Tariff Amendment Act, 1908 (No. 13 of 1908).

Gross duty received £3,944,792.

* Australian produce re-imported from abroad.

No. 16.—Exports Oversea, 1909.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under the headings "New South Wales Produce" and "Other Australian Produce."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages without an indication of the number, capacity, or weight of the articles exported, only the Values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 18.

Transhipments.—For return showing transhipments of goods, see Table No. 19.

No. 19.—Transhipments, 1909.

NOTE.—The following Table is a statement (A) of goods mostly of Australian production transferred by sea from other States of the Commonwealth to New South Wales, and thence transhipped to Countries outside Australia; and (B) of goods mostly of New South Wales production transferred by sea from New South Wales to other States and thence transhipped. These goods are included in the statements of general imports and exports (Tables 15 and 16). There are in addition goods transferred overland to and from New South Wales from and to the other Australian States, which are subsequently exported beyond the Commonwealth, but no record of such can be obtained by the Customs Department.

(A) GOODS TRANSFERRED FROM OTHER STATES INTO NEW SOUTH WALES, AND THENCE TRANSHIPPED.

* The figures in this column represent distinct children who have attended a State school the whole or some portion of the year, childr who may have received instruction at more than one State school during the year being counted only once.

† The mean enrolment of distinct scholars and the average daily attendance being determined for each quarter of the year, an average of the four quarters is taken, and the result is set down in this table. Pupils attending subsidised schools are only counted for 1907 and following years.

Gross Enrolment during 1909.—The gross enrolment of scholars during the year was 144,928 boys and 131,354 girls; total, 276,282.

December Quarter Average Attendance, 1909.—The average daily attendance of all scholars during December quarter, 1909, was 83,443 boys and 73,956 girls, total 157,399. (Attendance for this quarter was unusually low, owing to epidemics.)

Primary Schools.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools shall be absolutely unsectarian. "Secular instruction" is defined by the Act as including "genera religious teaching as distinguished from dogmatical or polemical theology."

Compulsory Attendance.—The Act makes it obligatory upon all children between the ages of 6 and 14 years (unless just cause of exemption can be shown) to attend school not less than 70 days in each half-year.

Causes of Exemption.—The causes of exemption defined by the Act are:—That the child is being regularly and efficiently instructed in some other manner; that from sickness or infirmity or from fear of infection or other unavoidable cause there is inability to attend; that there is no State School within 2 miles by the nearest road, or that the child has already been educated up to the standard of education required. Under the last clause, examinations for exemption certificates are held at the annual inspection of the schools.

Public Schools Savings Banks.—At the end of 1909, Savings Banks were in operation at 696 State Schools. The estimated number of depositors was 60,000, and £9,908 was standing to their credit. Deposits as collected are placed in the Government Savings Bank to the credit of the School Bank. As soon as the amount at the credit of an individual depositor reaches £1, a separate account is opened in the child's own name.

NOTE.—Enrolment at Subsidised Schools has been omitted for years previous to 1907.

December Quarter, 1909, Ages.—Of the 213,739 pupils whose ages were recorded during December quarter, 1909, there were 185,166 or 86·6 per cent., between the ages of 6 and 14 years; 9,412, or 4·4 per cent., were under 6 years of age; and 19,161, or 9 per cent., over 14 years.

Medical Inspection of Schools.—The medical inspection of scholars at schools within the Metropolitan and Newcastle Districts was continued during 1909.

Religious Instruction.—Provision is made for authorised religious teachers of any denomination to give religious instruction at specified hours to the scholars belonging to their persuasion, and separate class rooms are generally provided for this purpose. The total number of visits paid to State schools during 1909 by religious teachers for the purpose of imparting the special religious instruction to children of their own denomination, authorised by the Act, was 45,676, detailed information being:—Church of England, 24,977; Roman Catholic, 936; Presbyterian, 6,920; Methodist, 8,301; other denominations, 4,542.

NOTE.—In order to show the latest particulars regarding Religions of Scholars, the table has been compiled by the Department of Public Instruction for the December quarter of each year.

No. 12.—Public Schools—Teaching Staff, 1909.

NOTE.—In addition to the above, there were at the close of 1909, 344 teachers (35 males, 309 females) in charge of subsidised teaching stations.

Training College for Teachers.—At the Training College during 1909 there were in all 298 students in attendance, viz., 156 men and 142 women. These comprised Pupil-teachers who had completed their course, probationary students who had completed their second year's course, and a small number of persons who had not been previously in the service. The full training course now extends over a period of two years, but students have the option of leaving at the end of twelve months. Besides instruction in the professional subjects, the students are also given practical work under proper supervision at the Practice School, Blackfriars, which is contiguous to the Training College. The female students in their second year also receive lectures on Kindergarten methods and give lessons in the Kindergarten department of the Practice School.

* Exclusive of Sydney Grammar School and School for the Deaf and Dumb and the Blind.

Superior Public Schools.—To entitle a Public School to be designated a "Superior" Public School, at least 20 pupils must be eligible to join a fifth class. At the end of 1909 there were 145 Public Schools of Classes I to V, comprising 326 departments, classed as "Superior" Public Schools. In these schools instruction is given to the fifth class in Latin, French, and other subjects prescribed for the University Senior and Junior Examinations.

Kindergarten Schools.—In connection with the Public Schools there are three Public Kindergarten Schools, the enrolment at which, in 1909, was 519 boys and 463 girls; total, 982. The average attendance was 371 boys, 324 girls; total, 569.

Subsidised Schools.—In the December quarter, 1909, there were 344 private schools subsidised by the State. The enrolment at these schools was 3,179, and the average attendance 2,459. Subsidies are granted only in the case of children resident in thinly-populated country districts, so far removed from any Public school that attendance at such is a matter of impossibility. The conditions are that two or more families combine and engage a private teacher who, upon recognition by the Department, receives a subsidy at the annual rate of £5 per pupil upon the average monthly attendance up to a maximum of £50 yearly for each school.

Conveyance of Children.—During 1909 there were 51 Central Schools, to which children were conveyed by Government subsidised vehicles.

The Sydney Grammar School incorporated by Act of Parliament, December, 1854, was established to confer on all classes and denominations of British subjects the advantages of a regular and liberal course of education. The school was opened 3rd August, 1857.

The Act authorised the payment of £20,000 for erection of school buildings and Head-master's residence, and an annual endowment of £1,500.

Senior and Junior Public Examinations.—In connection with the Sydney University two Public Examinations, termed the Senior and Junior, are held annually at Sydney and at a number of local centres, including towns in Queensland. These Examinations are open to all candidates, male or female, who may present themselves. The University Professors, together with such other persons as the Senate may appoint, form the Board of Examiners.

In the year 1907 the qualification for matriculation in the various Faculties was raised, and divided into two Divisions (A and B). The Matriculation Examination is held annually in the month of March, but it is possible under the existing regulations to qualify in Division A at the Junior Public Examination and in Division B at the Senior Public Examination, and also at a Matriculation Examination held concurrently with the Senior Public Examination.

The examination for matriculation includes the following subjects:—Division A—English, Latin, Mathematics, Greek, or French, or German, at a lower standard. Division (B)—Latin, English, Mathematics, Greek, French, German, Mechanics; one of the following subjects—(a) Botany, (b) Chemistry (Inorganic), (c) Geology, (d) Physics, (e) Physiology, (f) Zoology; Modern History at a higher standard. Candidates are required to pass in Division (A), and in such subjects of Division (B) as are prescribed for admission to the respective faculties or departments of study.

Law Matriculation.—Persons desirous of entering into articles of clerkship with Attorneys, and who have not taken a University Degree, nor passed the preliminary examination required in England, Scotland, and Ireland, are required to pass a preliminary examination conducted by the University. The standard of the law matriculation examination is the University matriculation examination, Division A. Clerks are also required to pass two subsequent intermediate examinations in History and Law respectively. These examinations are conducted by a Board appointed by the Supreme Court.

Honorary Degrees.—The University has no power to confer honorary degrees.

Ad Eundem Degrees.—The Senate is empowered to confer *ad eundem gradum* degrees on graduates of other recognised Universities.

N.S.W. Medical Degrees.—As notified in the *Government Gazette* of 6th June, 1890, the second part of the British Medical Act of 1886 applies to New South Wales. Holders of the degrees of M.D., M.B., and Ch.M., conferred by the Sydney University, are consequently recognised and may be registered in the United Kingdom in the same way as holders of similar degrees, conferred by a British University, are registered in New South Wales.

Faculty of Medicine—Hospitals.—The Royal Prince Alfred Hospital was constituted a General Hospital and Medical School for the instruction of students attending the Sydney University. The Chancellor of the University and the Dean of the Faculty of Medicine are Directors *ex officio*. Other Hospitals recognised by the University as places where study may be carried on in connection with the Faculty of Medicine are Sydney Hospital, St. Vincent's, the Royal Hospital for Women, Royal Alexandra Hospital for Children, the Gladesville and Callan Park Hospitals for the Insane, and the Women's Hospital; and, for Dental students, the United Dental Hospital of Sydney.

* Includes three assistant professors. † Includes five assistant professors.

Under its Charter, the University of Sydney may confer, after examination, degrees in arts, law, and medicine; but not in theology and divinity. Graduates of Sydney University rank equally with graduates of British Universities.

Under the Act of 1884 women have all University privileges; and degrees may be granted to women in all branches of knowledge.

Senate.—The government of the University is vested in a Senate, consisting of 16 elected and not more than 6 *ex officio* members, being Professors of the University. The Senate elects from its members a Chancellor, who holds office for three years, and a Vice-Chancellor, who is elected annually.

Faculties.—There are now four Faculties: Arts, Law, Medicine, and Science. A Dean is appointed by the Senate to each Faculty from time to time for a term not exceeding two years. There are also Departments of Engineering, Dentistry, Veterinary Science, Agricultural Science, Economics and Commerce, and Military Science.

NOTE.—The figures for the above table have been amended since last publication.

Finance.—The supervision of the financial affairs of the University is entrusted to a Finance Committee consisting of the Chancellor, Vice-Chancellor, and four elected Fellows, subject to the direction and control of the Senate.

"Challis" Fund.—In 1880 the late Mr. J. H. Challis bequeathed to the University his whole estate, which, under the terms of the will, was transferred to that institution in September, 1889. The assets in Australia and England amounted to £268,224. The Senate has decided that the Fund shall be applied as permanent provision of income for educational uses. Through the agency of the Fund seven "Challis" Professorships and four "Challis" Lectureships have been established.

Other Foundations.—There are also the "Hovell" Lectureship, £6,000; the "Wentworth" Travelling Fellowship, now amounting to £3,132, and the Curatorship of the "Macleay" Museum, £6,000. In the year 1885 a sum of £30,000 was received from the estate of the late Mr. Thomas Fisher for establishing and maintaining a library. In 1896, the University received a donation of £50,000 from Mr. P. N. Russell; and, in 1904, a second amount of £50,000, to endow the Department of Engineering; and there are other Foundations smaller in amounts.

University Museums.—The "Nicholson" Museum of Antiquities, the "Macleay" Museum of Natural History, and the Museum of Normal and Morbid Anatomy, attached to the University, are accessible to the public under certain regulations.

Fisher (University) Library.—The Fisher Library building at the University was opened in September, 1909. The Library contains, approximately, 90,000 volumes.

No. 37.—University of Sydney—General Return for the Year 1909.

1905	Queen Victoria Memorial Scholarship.	20	3	For general proficiency, for girl.
	AWARDED AT THE FIRST YEAR EXAMINATION.			
1851	Levey Scholarship	40	1	For chemistry and physics.
1857	Cooper Scholarship, No. III ...	50	1	For classics.
1877	George Allen Scholarship ...	40	1	For mathematics.
1898	Garton Scholarship	45	1	For French and German.
1907	Lithgow Scholarship, No. II ...	50	1	For philosophy.
	AWARDED AT THE SECOND YEAR EXAMINATION.			
1853	Barker Scholarship, No. I ...	50	1	For mathematics.
1854	Deas-Thomson Scholarship ...	50	1	For chemistry and physics.
1854	Deas-Thomson Geology Scholarship.	50	1	For geology.
1857	Cooper Scholarship, No. I ...	50	1	For classics.
1886	Caird Scholarship...	50	1	For chemistry and physics.
1898	Garton Scholarship	45	1	For French and German.
	AWARDED IN THE FACULTY OF LAW.			
1867 1883	Wigram Allen Scholarship ...	50	1	For proficiency in the subjects of the intermediate law (Section I) examination.
1900	George and Matilda Harris Scholarship.	50	...	For proficiency in the subjects of the intermediate law (Section II) examination.
	AWARDED IN THE FACULTY OF MEDICINE.			
1877	Renwick Scholarship	45	1	For proficiency in the subjects of the first year examination in medicine.
1887	John Harris Scholarship... ...	40	1	For proficiency in the subjects of anatomy and physiology in the third year examination in medicine.
	AWARDED IN THE DEPARTMENT OF ENGINEERING.			
1897	Peter Nicol Russell Scholarship ...	75	...	Awarded after competitive examination at entrance and at each annual examination in Mechanical Engineering.
1905	William and Jane Grahame Prizes or Scholarship.	40	...	For prizes or scholarship in Mechanical Engineering.
	TENABLE BY GRADUATES.			
1883	James King Travelling Scholarship.	150	2	On advice of the Professors, to graduate of not more than four years' standing. Holder to prosecute his studies at places approved by Senate.
1890	Frazer Scholarship	70	...*	To students qualified for the B.A. degree, on result of the third year examination in history.
1897	Woolley Scholarship	150	2	On advice of Professors in literature, philosophy, and history, to graduate of not more than four years' standing. Holder to prosecute his studies at a place approved by the Senate.
...	Science Scholarship of H.M. Commissioners for the Exhibition of 1851.	150	2	Open to students of three years' standing, for the study of any branch of science with a view to developing the manufactures and industries of the country.
1905	James Coutts Scholarship ...	50	1	For distinction in English Literature.
1905	John Coutts Scholarship... ...	50	1	To a Bachelor of Science continuing his studies.
1907	Barker Graduate Scholarship ..	150	2	Awarded on the report of the Deans of the Faculties of Arts and Science and the Professors of Mathematics and Physics.
1907	Cooper Graduate Scholarship ...	150	2	Awarded on the report of the Dean of the Faculty of Arts and the Professor of Latin and Greek.

* One half payable at time of award, the second half on passing examination qualifying for M.A. degree with Honours in History, or on having pursued for one year some other course of historical study to the satisfaction of the Senate.

EXHIBITIONS.

Founded.	Name.	Amount. £	Years Tenable.	How Awarded.
	AWARDED AT MATRICULATION EXAMINATION.			
1858	Salting Exhibition	25	3	On recommendation of Sydney Grammar School Trustees.
1889	Horner Exhibition	8	1	For mathematics.
	AWARDED AT FIRST YEAR EXAMINATION.			
1883	Struth Exhibition	50	5	To assist students in obtaining a Degree in the Faculty of Medicine. ... ...
1900	Henry Wait Bursary	40	5	" " "

Scholarships and Exhibitions.—These have been founded chiefly by private benefactors as rewards for proficiency, and for the purpose of placing the advantages of a University education within the reach of students who might, through the want of financial means, be excluded from participation in them. They are awarded only when candidates exhibit a degree of proficiency satisfactory to the Examiners. Undergraduates may not hold more than two scholarships at one time.

No. 38.—University of Sydney—Endowments—*continued.*

PRIZES AND MEDALS.

Founded.	Name.	Amount. £	How Awarded.
	AWARDED AT FIRST YEAR EXAMINATION.		
1885	Smith Prize	4	For experimental physics.
1886	Slade Prizes (2)	£5 each	For practical chemistry and practical physics respectively.
1892	Collie Prize	4	For botany.
	AWARDED AT SECOND YEAR EXAMINATION.		
1886	Norbert Quirk Prize	5	For mathematics.
	AWARDED AT EACH DEGREE EXAMINATION.		
...	Bronze Medals	...	To the highest proficients in the various degree examinations.
	OPEN TO GRADUATES AND UNDERGRADUATES.		
1854	Wentworth Medals (2)	£10 each	For best English essays, written respectively by undergraduates and Bachelors of Arts of not more than three years' standing.
1867	Nicholson Medal	10	For Latin verse. Open to all undergraduates, and graduates of not more than three years' standing.
1870	Belmore Medal	15	For geology and practical chemistry, with special reference to agriculture. Open to all members of the University of two and under five years' standing, not being M's.A.
...	University Prize	10	For English verse. Open to all undergraduates and Bachelors of Arts of not more than two years' standing.
...	Professor Anderson's Medal ...	10	For essay on philosophical subject. Open to all Bachelors of Arts of not more than two years' standing.
1901	Beauchamp Prize...	25	For essay on some subject of literary and historical interest. Open to all undergraduates and graduates of not more than 25 terms standing from matriculation.
1906	Lloyd Memorial Prize	8	For a Latin essay.

University Prizes.—Prizes and medals in value up to £20 each are given annually by the University to students who exhibit the greatest proficiency at various Examinations, and to the most distinguished candidates in the Honour Examinations for different Degrees.

Private Prizes.—Prizes for proficiency in different subjects are awarded annually by various Professors and others, ranging in value from £2 2s. to £10.

Military Commission.—A commission in the British Army is offered annually to a student of the Sydney University under certain conditions which may be seen in the Calendar of the University.

No. 39.—University of Sydney—Bursaries.

Founded.	Name.	Amount.	
		£	
1874	Maurice Alexander	40	
1876	John Ewan Frazer	50	
1876	Ernest Manson Frazer	50	
1876	William Charles Wentworth, No. 1	50	
1876	William Charles Wentworth, No. 2	50	
1876	Burdekin	40	
1876	Hunter-Baillie, No. 1	50	
1877	Hunter-Baillie, No. 2	50	For sons of ministers of religion.
1879	Levey and Alexander. (Tenable for 3 years.)	50	Open to graduates desirous of entering a profession, but not having the necessary means. The Senate may at discretion pay the £150 in one amount.
1881	Walker (4)	£50 each	Not more than one-half of these Bursaries are applicable to female students.
1881	Walker (1)		
1886	William Charles Wentworth, No. 3	...	From accumulations from No. 2 Bursary, in accordance with the will of the founder. These amounted in December, 1909, to £1,337. When the sum of £1,500 shall have been reached, No. 3 Bursary, with a capital fund of £1,000, will become operative, and the balance of £500 will accumulate to form No. 4.
1900	Henry Wait	40	For five years to a student from the first year in the Faculty of Arts proceeding to Medicine.
1901	Duncan	35	

Bursaries.—Bursaries are conferred only when satisfactory proof is produced that the means of the candidate, or of his parents or guardians, are insufficient to enable him to attend the University without such assistance. There are sixteen at the disposal of the University. These have been created (on the initiation of the late Dr. Badham, when Professor of Classics) by private foundations. They are supplemented, on the part of the Senate, by an exemption from all matriculation and lecture fees, except in case of those available in professional schools. Women are eligible for not more than one half of the bursaries, founded in 1881, by the late Mr. Thomas Walker, of Yaralla, Concord; the value in each case not exceeding £25.

Public School—University Bursaries.—Ten other bursaries have been created by the Government in connection with the Public School system, but the University is not concerned in their award, although the Senate has conceded to the holders exemption from fees. For information relating to these Bursaries, see Table No. 14.

Establishment of Technical Education.—During the year 1873 a proposal was entertained to establish a Technical or Working Men's College. In 1878 a sum of £2,000 was granted by Parliament for the organisation of the Technical College, and for five years the classes were carried on at the College. In 1883 a Board was appointed by Government to take over the management, but towards the end of 1889 the Board was dissolved, and the Technical Colleges were placed under the control of the Minister of Public Instruction. In 1892 the Technical College at Ultimo was opened to students.

Enrolment.—The total number of pupils enrolled during 1909 was 21,242, but a number of students have joined more than one class; the number of individual students was 15,470, with an average weekly attendance at the Technical College and Branches of 10,125, and at State Schools 1,341, or a total of 11,466.

No. 46.—Technical Education—Technical Scholarships.

The scholarships approved by the Minister of Public Instruction were awarded on the results of the 1909 Annual Examinations, and entitle the winners to free instruction in the next year's (1910) course of the subjects of their study.

The number of scholarships granted are as follows:—

Agriculture	2	Dressmaking	2	Photo-Engraving	2
Algebra	2	Electrical Engineering	4	Plant Drawing	2
Antique Drawing...	2	Fitting and Turning	2	Plaster Casting	2
Applied Mechanics	2	Freehand Drawing	4	Plumbing	6

Hawkesbury Agricultural College.—The course of study relates to the principles of agriculture, the breeding, rearing, feeding, and management of live stock, chemistry, soil physics, botany, vegetable pathology (including the use of the microscope), entomology, veterinary science and practice, elementary mechanics, farm engineering, elementary surveying, bacteriology, meteorology, farm book-keeping, and all kinds of practical work on the farm. Students receive instruction in field operations, the use of farm implements and machinery, all dairy operations, the necessary carpentry, saddlery, blacksmithing, and engineering required on a large farm, the management of bees and poultry, and all branches of gardening and orchard work. Accommodation for 200 students.

Farm School at Wagga Experiment Farm.—Students are instructed in the principles of agriculture and horticulture suitable for the Riverina and other districts having similar climate and soils, and especially in the production of wheat of the highest quality true to name, field operations, the use of farm implements and machinery, the necessary carpentry and engineering required on a large farm, the management of stock and poultry, viticulture, fruit drying, raisin making, and various branches of gardening and orchard work. Accommodation for 53 students.

Farm School at Bathurst Experiment Farm.—Students are instructed in the principles of agriculture and horticulture, field operations, the use of farm implements and machinery, dairying, the necessary carpentry and engineering required on a large farm, the care, breeding, and fattening of stock, fruit preserving, and various branches of gardening and orchard work.

The principal features of the farm work are the growing of wheats and other crops suitable for the mid-tableland district, and other districts having similar climate and soils, sheep raising, and the production of mutton for export, and orchard work. Accommodation for 32 students.

School Farm at Wollongbar Experiment Farm.—Special facilities are afforded at this school for students to acquire a knowledge of practical dairying work as carried out in the semi-tropical portions of the State known as the North Coast. Students are instructed in the methods of growing crops for fodder, handling and treatment of milk and cream, and the manufacture of butter and cheese, cattle breeding, rearing and management. Accommodation for 20 students.

Berry Dairy Stud Farm.—Students are imparted instruction in dairying, farm cattle, breeding, rearing, and management, and butter making in all its branches, the treatment of milk and cream, the manufacture of butter, and the cultivation and conservation of various crops utilised for feeding dairy cattle on the South Coast. Accommodation not provided for residential students.

Bursaries.—Three bursaries each will be given annually to the Hawkesbury Agricultural College, and the School Farms at Wagga and Bathurst Experiment Farms, and one to Wollongbar Experiment Farm. The bursaries will be tenable for three years at the College, and for two years at the School Farms, and will be awarded to youths whose parents' circumstances and their own aptitude and qualifications render deserving of this assistance.

Scholarships.—Three scholarships are awarded annually to students of the Hurlstone Agricultural Continuation School who have passed with credit through the two years' course at the school, and entitle the holders to a two years' course at the Hawkesbury Agricultural College without payment of fees, and to a grant of text-books.

Technological Museum.—This museum, established in 1879, was first administered by a committee of management appointed by the Trustees of the Australian Museum. It was transferred to the Department of Public Instruction on 1st January, 1890, as an integral part of the system of Technical Education. Special endeavours are made to collect the raw products and samples illustrative of the industries and manufactures of Australia; and the museum contains a large number of mineral and vegetable products, and a comprehensive series of specimens of wool. Over 100,000 exhibits in all have been acquired by purchase, gift, loan, and exchange.

The Technological Museum and Branches are open to the public free of charge.

School Museums.—At most of the Public Schools, Museums have been established for the practical use of the pupils. The Technological Museum assists public schools in Nature-study. Specimens are named, classified, and supplied for the purpose of assisting teachers in the formation of school museums.

Australian Museum.—The Australian Museum was founded in 1836. It was originally connected with the Botanic Gardens, and was located in a room in Macquarie-street, Sydney, but was afterwards removed to the Surveyor-General's Office, and again, in 1849, to its present site. Its affairs were managed by a committee until 1853, when the Museum was incorporated under Trustees. Provision was also made for a State endowment which is supplemented by annual Parliamentary appropriations. The Museum is open to the public free of charge, except on Mondays, when students only are admitted. It is primarily a Museum of Natural History.

* Includes £2,845, cost of new cases.

Museum Library.—The library attached to the Australian Museum contains many valuable works of reference. Presentations are continually received. Although essentially a scientific library for the use of the staff, it is accessible to students under very reasonable restrictions. It contains 15,759 volumes. The Museum publications consist of catalogues and records containing papers by the staff on current scientific work.

The estimated total value is £136,000.

Art Students.—Art students desirous of making copies of works in the Gallery may do so under certain regulations.

Country Loan Collection.—106 pictures are distributed amongst the country towns in the State.

NOTE.—The National Art Gallery of New South Wales is open to the public, free of charge, on Week-days and Holidays at 10 a.m., and on Sundays at 2 p.m.

No. 56.—The Sydney Observatory, 1909.

The Sydney Observatory was established in the year 1856. It is situated 144 feet above sea-level. Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 23·1″ east.

The Observatory was visited by 1,141 persons during the year.

Astronomical Work at Sydney Observatory.—The observations taken comprised 853 zone stars, 343 clock stars, 108 azimuth stars, and 370 determinations of collimation and azimuth. In addition, 13 pairs of double stars were measured, and 13 observations of Halley's Comet were made with the 11½-inch refractor. At the Red Hill Observatory, the photographic plates include 75 chart plates, and 6 catalogue plates. Twenty-three drawings of the planet Mars during its opposition were made, also a sketch of the Aurora Australis. The measurement of star plates, jointly undertaken by New South Wales and Victoria, has been continued during the year. The daily time-ball service at Sydney and Newcastle has been maintained; and the seismograph has been working continuously throughout the year, 158 tremors having been recorded on the instrument. Magnetic Work has been continued at Red Hill Observatory; the mean variation for the year being 9° 24′ 29″ east (from 34 observations), and the mean dip 63° 6′ 0″. The resultant mean variation at Sydney is 9° 28′ 29″ east.

No. 57.—Meteorological Bureau, Sydney, 1909.

The Meteorological Bureau, Sydney, is administered by the Government of the Commonwealth of Australia.

One Bulletin and one Weather Chart have been published daily. The former, issued at 1 p.m., contains full reports, viz., rain and weather, and temperature information from 220 stations, as at 9 a.m. each day.

The Weather Chart, published during the afternoon, contains complete data, isobars, full notes, shaded rain-area, and forecast for the ensuing 24 hours.

During the year there were issued 5,600 Bulletins, 15,550 Weather Charts, and 13,000 Rain-maps of New South Wales. These latter show the daily, monthly, annual, and storm distribution of rainfalls, together with departures from average.

An isobaric chart, depicting also by symbols at a number of stations, the direction of wind, rain-areas, thunderstorms, and condition of sea, together with a concise note on the resulting weather since the previous day, has been regularly prepared in the Weather Bureau for publication in the Sydney newspapers.

Forecasts have been telegraphed each day to 91 towns.

During the year 47 extra climatological stations were established, the number now being 1,945. All stations are equipped with rain-gauges, and they may be classified as follows:—

1	with self-recording thermograph.
6	„ barograph.
33	„ mercurial barometers, hygrometers, maximum and minimum thermometers.
169	„ maximum and minimum thermometers.
1,736	„ rain-gauge only.

Monthly and weekly review of the weather over Australia generally are prepared, tracing the progress of the different changes in atmospheric pressure, and their effect upon the weather; and copies are sent to the metropolitan and country press.

NOTE.—For returns relating to Meteorology, see Part "Primary Production."

Donations of Books, &c.—During 1909 the general collection of books was increased by 7,538 volumes, inclusive of 2,042 presentations, and 322 books, newspapers and periodicals received under the provisions of the Copyright Act.

Books borrowed by Country Libraries, &c.—There were 13,207 volumes issued to country libraries in 127 towns of the State, 1,380 volumes were sent to 16 different lighthouses, 3,635 volumes were lent to 62 different Public School Teachers' Associations, and 42 volumes were lent to individual students in the country for special study.

Lending Branch transferred.—In December, 1903, the maintenance and control of the Lending Branch devolved upon the Sydney Municipal Council, but by agreement the trustees of the Public Library were to continue the management until the conclusion of the arrangements for taking over the branch. The Council entered into possession on the 15th October, 1909.

NOTE.—The Library is open to the public free of charge.

The Public Library of New South Wales.—The "Free Public Library" was established on the 1st October, 1869, when the buildings and books of the "Australian Subscription Library," founded in 1826, were purchased by the Government. During the years 1886-7 considerable additions were made to the premises; the new buildings were opened in April, 1890. In 1877 the operations of the Library were extended by means of a Lending Branch. Under certain regulations books may be borrowed by individuals, country Libraries, Mechanics' Institutes, and groups of Students in Country Districts, free of charge. During 1903 the Library took control of the "Lighthouse Library," and now lends boxes of books to lighthouses of New South Wales. During 1895 the name "Free Public Library" was changed to "The Public Library of New South Wales." In December, 1899, the Library was incorporated, and received a statutory endowment of £2,000 per annum. Under the Sydney Corporation Amendment Act of 1908 the Municipal Council of Sydney took over the control of the Lending Branch of the Library in December, 1908, but did not enter into possession till 15th October, 1909.

Mitchell Library.—Mr. D. S. Mitchell at his death on 24th July, 1907, bequeathed to the State the whole of his unique collection, consisting principally of books and manuscripts relating to Australasia, and comprising 60,100 volumes and 300 framed paintings of local historic interest, a collection valued at £100,000. The public are, under certain necessary regulations, admitted to this Library.

No. 60.—The Public Library—Expenditure, 1904-9.

* This represents gold received by escort at the Mint for the Sydney banks, which, after being assayed by the latter institutions, is returned for coinage; the Mint authorities are, therefore, unable to state the place of origin.

† These values are approximate only, the actual figures for each district being unobtainable; but the totals given are correct. An average price of about £3 12s. 0d. has been assumed in arriving at the value of the gold from each district during 1909. It is probable, however, that the prices varied to some extent in the various localities.

Light Gold and Silver Coins.—Light gold coins in parcels of not less than £50 nominal value are received at the Sydney Mint and recoined free of charge, but depositors are required to bear the loss by abrasion. Under the Order-in-Council of 16th March, 1892, as extended by the Order-in-Council of 19th March, 1908, light gold coins are withdrawn by the Sydney Branch Mint, at their nominal value, provided that they have not been called in by any proclamation, and have not been illegally treated. The Coinage Act, 1891, defines a gold coin as being illegally used, when it has been impaired, diminished, or lightened otherwise than by fair wear and tear, or has been defaced by stamping any name, device, or number thereon. The Act further defines a loss of weight from the standard weight exceeding 3 grains as *primâ facie* evidence that the coin has been illegally used. The worn silver withdrawn from circulation is forwarded to England for recoinage.

Seigniorage.—The difference between the nominal value of silver and the average price per standard ounce paid by the London Mint represents the seigniorage or gross profit. The coinage or nominal value of silver per standard ounce is 5s. 6d., and the price per ounce paid by the London Mint during 1909 averaged 1s. $11\frac{11}{16}$d. The difference, 3s. $6\frac{5}{16}$d., represents the seigniorage accrued; against this, however, must be placed the loss to the Imperial Government by purchase of worn silver at its nominal value The supply of British silver coin to the Commonwealth ceased in 1909, and by arrangement with the Imperial authorities a local silver currency has been issued, the profits on which will accrue to the Federal Government.

* Includes charges on gold of other States or Countries, particulars of which are no longer kept separately.

Mint Charges.—Gold deposited at the Sydney Mint for melting, assaying, refining, and coining is subject to a charge per ounce, and the charges are deducted from the gross value of the deposit. They are—

(A) For assaying and coining.—Charge fixed by the Royal Proclamation of 17th September, 1900—1d. the ounce standard.

(B) For melting and refining.—Levied on all gold insufficiently refined and toughened for direct conversion into coin—

- (*a*) A deposit of 500 ounces or under, at the rate of 3d. the ounce, gross.
- (*b*) A deposit of more than 500 ounces, but not more than 1,000 ounces, at the rate of 2d. the ounce, gross.
- (*c*) A deposit of more than 1,000 ounces, at the rate of 1d. the ounce, gross.
- (*d*) A deposit containing more than 5 per cent. of base metal, at the rate of 1s. the ounce for all base metal contained therein, in addition to the ordinary charges for melting, assaying, refining, and coining.

The minimum charge on any one deposit is 6s., except in the case of deposits containing more than 5 per cent. of base metal, when the minimum charge is 10s. 6d.

Silver retained.—In addition to the above, the Mint authorities retain all silver contained in deposits, but payment is made for the silver in excess of 8 per cent. at a rate from time to time fixed by the Deputy Master. The rate paid from the 1st January to the 30th November, 1901, was 2s. 3d. per oz. fine; from the 1st December, 1901, to the 11th May, 1902, 2s. per oz. fine; and from the 12th May, 1902, 1s. 6d. per oz. fine.

The following statement shows the titles of the various Friendly Societies which are denoted by initials in the four tables following :—

A.H.C.G.—Australasian Holy Catholic Guild.
A.N.A.—Australian Natives Association.
A.O.F.—Ancient Order of Foresters.
G.U.O.F.G.—Grand United Order of Free Gardeners.
G.U.O.O.F.—Grand United Order of Oddfellows.
H.A.C.B.S.—Hibernian-Australasian Catholic Benefit Society.
I.N.F.—Irish National Foresters.
I.O.O.F.—Independent Order of Oddfellows.
I.O.R.—Independent Order of Rechabites.
L.P.B.S.—Loyal Protestant Benefit Society.
M.U.I.O.O.F.—Manchester Unity Independent Order of Oddfellows.
N.I.O.F.—National Independent Order of Oddfellows.
O.R.F.—Order of Royal Foresters.
P.A.F.S.—Protestant Alliance Friendly Society.
S.D.T.—Sons and Daughters of Temperance.
U.A.O.D.—United Ancient Order of Druids.

NOTE.—Affiliated societies are those with branches—single societies have no branches.

Return of Net Risks under Fire Brigades Act.—Under the Fire Brigades Act, 1902, the Insurance Companies holding risks within the proclaimed area under the Fire Brigades Board of Sydney were required to furnish annually to the Board the amount held at risk on the preceding 31st December, less the sums reinsured with other Companies contributing under the Act. This Act was repealed by the Fire Brigades Act No. 9 of 1909, and the Companies are now compelled to furnish returns showing the amount of premiums received each year. The expenditure of the Board is defrayed by contributions from the municipalities and shires mentioned in the schedules to the Act, the insurance companies, and the Government, in equal proportions. The amount levied on the local bodies is ¼d. per £ of unimproved value, but this may be exceeded in certain cases. As the returns now supplied to the Board by the Companies are confidential, the figures for 1909 cannot be obtained, and the above statements are, therefore, the latest available.

No. 58.—Private Railways, 1909.

43. Trade Unions, 1909 ... 591

PART VI.—MANUFACTORIES AND WORKS.

Since the year 1895, the statistical returns have been compiled on a new basis, in order to secure uniformity with Victoria. Formerly an establishment where no machinery was used was included in the returns if at least five persons were employed; but on the present basis the minimum number of employees in such factories is four. Milliners, dressmakers, and tailors, formerly not enumerated, also home workers regularly employed in connection with factories, are now included in the general total.

---

* The output of Boots and Shoes for 1908 was overstated by 40,000 pairs, valued at £8,000, which should have been returned as Uppers (N.E.I.).

† The number treated in 1908 should read 620,013, instead of 573,913.

No. 35.—Average Weekly Wages according to Occupation, 1909.

(PERSONS AGED 21 YEARS AND OVER.)

The following Statistics in Tables 35, 36, and 38 to 41 are obtained from Returns collected under the Factories and Shops Act of 1896.

The following places are Factories within the meaning of the Factories and Shops Act:—

1. Any place (including a laundry, dye-works and bake-house), in which four or more persons are engaged directly or indirectly in working at any handicraft, or in preparing or manufacturing articles for trade or sale. This does not, however, include any building or place in which the persons working are all members of one family.
2. Any place (irrespective of the number of persons employed, or of the fact that they are all members of the same family) in which steam or other mechanical power or appliance is used—
   - (*a*) In manufacturing goods, or
   - (*b*) In packing goods for transit.
3. Any place in which two or more Chinese are so engaged.

All Government workshops, including the Railway workshops, Government Dockyard, State Clothing Factory, and the Government Printing Office, are excluded from the returns.
